Preface.....	xi
Authors	xv
1. Fuzzy Subsets and Operations	1
1.1 Introduction	1
1.2 Concept of Fuzzy Subsets and Membership Function.....	1
1.2.1 Membership Function	2
1.3 Linguistic Hedges.....	10
1.4 Operations on Fuzzy Sets	11
1.5 Fuzzy Relations	14
1.5.1 Composition of Two Fuzzy Relations	16
1.5.2 Fuzzy Binary Relation.....	17
1.5.3 Transitive Closure of Fuzzy Binary Relation.....	18
1.6 Summary	19
References	20
2. Image Processing in an Imprecise Environment	21
2.1 Introduction	21
2.2 Image as a Fuzzy Set	23
2.3 Fuzzy Image Processing	24
2.3.1 Foundations of Image Processing.....	24
2.3.1.1 Fuzzy Geometry	24
2.3.1.2 Measures of Fuzziness/Information	24
2.3.1.3 Rule-Based Systems	25
2.3.1.4 Fuzzy Clustering	25
2.3.1.5 Fuzzy Mathematical Morphology	25
2.3.1.6 Fuzzy Grammars.....	26
2.4 Some Applications of Fuzzy Set Theory in Image Processing	26
2.5 Summary.....	28
References	28
3. Fuzzy Similarity Measure, Measure of Fuzziness, and Entropy.....	31
3.1 Introduction	31
3.2 Fuzzy Similarity and Distance Measures	32
3.2.1 Examples of Fuzzy Distance Measures	33
3.2.2 Fuzzy Divergence	33
3.3 Examples of Similarity Measures.....	35

3.3.1	Measure Based on Tversky's Model	35
3.3.2	Similarity of Fuzzy Sets Based on Distance	37
3.4	Measures of Fuzziness	37
3.4.1	Index of Fuzziness	38
3.4.2	Index of Nonfuzziness	39
3.4.3	Yager's Measure.....	39
3.5	Fuzzy Entropy	40
3.5.1	Logarithmic Entropy	40
3.5.2	Shannon Fuzzy Entropy	40
3.5.3	Total Entropy	40
3.5.4	Hybrid Entropy	42
3.6	Geometry of Fuzzy Subsets.....	43
3.7	Summary.....	43
	References	44
4.	Fuzzy Image Preprocessing.....	45
4.1	Introduction	45
4.2	Contrast Enhancement.....	47
4.3	Fuzzy Image Contrast Enhancement.....	47
4.3.1	Contrast Improvement Using an Intensification Operator.....	49
4.3.2	Contrast Improvement Using Fuzzy Histogram Hyperbolization.....	52
4.3.3	Contrast Enhancement Using Fuzzy IF-THEN Rules	53
4.3.4	Contrast Improvement Using a Fuzzy Expected Value	54
4.3.5	Locally Adaptive Contrast Enhancement	55
4.4	Filters.....	56
4.5	Fuzzy Filters	58
4.6	Summary.....	63
	References	63
5.	Thresholding Detection in Fuzzy Images.....	67
5.1	Introduction	67
5.2	Threshold Detection Methods	68
5.3	Types of Thresholding.....	69
5.3.1	Global Thresholding.....	69
5.3.2	Locally Adaptive Thresholding.....	70
5.3.3	Iterative Thresholding.....	71
5.3.4	Optimal Thresholding	71
5.3.5	Multispectral Thresholding	72
5.4	Thresholding Methods.....	72
5.5	Types of Fuzzy Methods.....	74
5.5.1	Gamma Membership Function.....	79
5.5.1.1	Fuzzy Divergence	80
5.5.1.2	Index of Fuzziness	82
5.5.1.3	Fuzzy Similarity Measure.....	83

5.6	Application of Thresholding	87
5.7	Summary	89
	References	91
6.	Fuzzy Match-Based Region Extraction	93
6.1	Match-Based Region Extraction	93
6.2	Back Projection Algorithm	95
6.2.1	Swain and Ballard's Back Projection Algorithm	95
6.2.2	Quadratic Confidence Back Projection	96
6.2.3	Local Histogramming	97
6.2.4	Binary Set Back Projection	97
6.2.5	Single Element Quadratic Back Projection	97
6.3	Fuzzy Region Extraction Methods	98
6.3.1	Fuzzy Similarity Measures	98
6.3.2	Fuzzy Measures in Region Extraction	100
6.4	Summary	107
	References	107
7.	Fuzzy Edge Detection	109
7.1	Introduction	109
7.2	Methods for Edge Detection	109
7.2.1	Thresholding-Based Methods	110
7.2.2	Boundary Method	111
7.2.3	Hough Transform Method	111
7.3	Fuzzy Methods	111
7.3.1	Fuzzy Sobel Edge Detector	112
7.3.2	Entropy-Based Fuzzy Edge Detection	113
7.3.3	Fuzzy Template Based Edge Detector	116
7.4	Summary	122
	References	123
8.	Fuzzy Content-Based Image Retrieval	125
8.1	Introduction	125
8.2	Color Spaces	126
8.3	Content-Based Color Image Retrieval	128
8.3.1	Global-Based Approach	128
8.3.2	Partition-Based Approach	129
8.3.3	Regional-Based Approach	130
8.4	Image Retrieval Model	130
8.5	Fuzzy-Based Image Retrieval Methods	131
8.5.1	Fuzzy Similarity-Based Retrieval Model	132
8.5.2	Color Histogram-Based Retrieval	134
8.5.3	Smoothed Histogram-Based Retrieval	134
8.5.4	Fuzzy Similarity/Tversky's Measure-Based Retrieval Method	136
8.5.4.1	Fuzzy Similarity Measures	137

8.6 Summary.....	142
References	142
9. Fuzzy Methods in Pattern Classification.....	145
9.1 Introduction	145
9.2 Decision Theoretic Pattern Classification Techniques.....	146
9.2.1 Preliminaries of Unsupervised Classification.....	148
9.3 Why a Fuzzy Classifier.....	151
9.3.1 Limitations of Statistical Classifiers.....	151
9.4 Fuzzy Set Theoretic Approach to Pattern Classification.....	152
9.5 Fuzzy Supervised Learning Algorithm.....	153
9.6 Fuzzy Partition	155
9.6.1 Pattern Classification Using a Fuzzy Similarity Measure	156
9.6.2 Fuzzy Similitude and Partitioning	156
9.7 Fuzzy Unsupervised Pattern Classification	161
9.8 Summary.....	163
References	163
10. Application of Fuzzy Set Theory in Remote Sensing.....	165
10.1 Introduction	165
10.2 Why Fuzzy Techniques in Remote Sensing.....	165
10.3 About the Remotely Sensed Data	166
10.4 Classification of Remotely Sensed Data.....	167
10.5 Fuzzy Sets in Remote Sensing Data Analysis.....	168
10.6 Background Work in Neuro Fuzzy Computing in Remote Sensing.....	169
10.7 Background Work on Fuzzy Sets in Remote Sensing.....	172
10.8 Segmentation of Remote Sensing Images.....	173
10.9 Fuzzy Multilayer Perceptron.....	175
10.9.1 Fusion of Fuzzy Logic with Neural Networks.....	176
10.9.2 Fuzzy MLP with Back-Propagation Learning	176
10.9.3 Fuzzy Back-Propagation Classifier Architecture	177
10.10 Fuzzy Counter-Propagation Network.....	178
10.11 Fuzzy CPN for Classification of Remotely Sensed Data.....	179
10.11.1 General Description of the Test Scenes	179
10.11.2 Experimental Results	181
10.12 Summary	182
References	183

11. MATLAB® Programs.....	185
11.1 Introduction.....	185
11.2 MATLAB Examples	187
Problems	201
Index.....	207
